Senator Sutherland To Speak in Lehi

Mr. Heber Hart, president of the Young Men's Republican club announces that he has received a promise from George Sutherland, United States Senator, to address a meeting of the club in Smuin's Academy on Friday, September 25th. The Provo Glee club will also be present.

Mr. Hart says that the seats will be so arranged on the floor of the hall that everybody will be able to hear well. He also announces that after the speaking there will be a grand ball. An effort will be made to make this the greatest event socially and otherwise wise, of the coming campaign. The speaking will commence at 7:30 and the dancing at 9 o'clock.

Arch D. Gardner Undergoes Operation

Archie Gardner, who is on a mission in the Sandwich Islands, underwent an operation for appendicitis in a Honolulu hospital on August 27th. This information was communicated to his parents, Bishop and Mrs. Jas. H. Gardner, in a letter received by them Wednesday. The letter also stated that it was written by him while propped up in bed, five days after the operation, and that when the letter was written he was feeling fine, and expected to be out in five or six more days.

It appears that Mr. Gardner has had two prior attacks, about one and two years ago, but this one was so severe that he was taken about forty miles in an automobile to undergo the operation.

Cucumber Season Ended

The frost, Wednesday night, ended the cucumber picking for this year. It was so general that all the growers, both at Lehi and Springville, that no more cucumbers will be received. The first cucumbers were delivered in July, making the season practically two months in duration.

During this time, eight big vats holding over twenty tons each, have been filled with small cucumbers covered with salt and brine. About 700 50-gallon barrels have also been filled with dill pickles of a larger size, making approximately 200 tons of cucumbers that were delivered in the two months time.

The City Council has been asked to give the company permission to extend its building to provide facilities for practically doubling its present capacity next year.

Royal Theatre Ready For The Big Opening

During the week the new opera chairs have been fastened to the floor of the Royal Theatre. There are 700 of them. Morgan Lott has completed the plumbing. The scene artist has added several new curtains, drops and a parlor scene, the painting is now nearly all done. The carpenters have practically finished the beautiful front box office, etc., and the electric wiring is now complete. When the lights were turned on one day this week, it presented a beautiful scene and made the place look like "some theatre."

An interesting feature is the exit bolts at each exit. The doors are securely locked, but a slight push from the inside on the brass bars that cross each door will throw them open, making exit easy. The expensive Powers picture machines arrived this week, and about the only thing now delaying the opening of the new play house is the arrival of the switch board, to be located in the operating room.

Base Ball Season Closes

Lehi played its last league base ball game here for the season last Saturday. The score ended American Fork 12, Lehi 4. Some of Lehi's men had never played in the team before, which accounts for most of the runs made by the visitors.

Base ball is Lehi, this season, has not been up to the standard of recent years, due largely to the support given by the people. Then, too,

there were several changes in managements and numerous changes in players. Probably not in any two successive games has there been the same list of players.

Lehi this year had material for a winning team, but only once or twice did they play in the same game. Men who play ball for the pleasure of the public and the glory of the town should be given positions where they can get off one day per week. The town can afford to help support a team. Nothing contributes more to the life of a town during the summer months. By all means let Lehi get in next year and give the boys the support that will restore Lehi to its former base ball glory.

Young Ladies in Buggy Accident

Sunday evening a buggy driven by Mr. Ed. Leiter turned Mammor's corner from Main Street just as another buggy driven by Miss Laverde Lewis, Freda Olson and Mildred Beck turned the Relief Society corner, going north from Main Street, came up slightly behind. Mr. Leiter gave his horse a cut with his whip which caused both horses to run, the one being driven by the young ladies running into a gravel pile causing the buggy to turn over and spilling the occupants on the road.

Miss Lewis was picked up and carried into Jos. Holden's home, where after about fifteen minutes she regained consciousness. She was considerably bruised on the arms, lower limbs and head. The other young ladies were also considerably bruised, though not so serious as Miss Lewis. The horse broke the overturned buggy several blocks up Second West street before being stopped. The shafts and top of the buggy were smashed.

The young ladies attach no blame to Mr. Leiter, and though quite painfully hurt, they are now practically recovered.

Home Economics Club

The Ladies' Home Economics Club will hold its regular by-weekly session Tuesday evening in the Grammar School building. Miss Edna Gibb will give a reading and Mrs. Stookey will read from the Montessori Mother. At the next meeting there will be a talk from Miss Stratford, the new domestic science teacher in the High School.

SCHOOL BAND GIVES CONCERT

The young School Band, under the leadership of Melvin Smuin, gave an hour and a half concert from the porch roof in front of Darling's Hotel on Main Street, Wednesday evening. They played six pieces like veterans, and closed with the Star Spangled Banner, which brought rounds of applause from the big crowd who gathered to listen. After the concert the band went to the High School building, where it played several tunes for the Republican primary.

Salts if Kidneys or Bladder Bother

Harmless to Flush Kidneys and Neutralize Irritating Acids.

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call

it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist, and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again. Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever. Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.
